SMALTO EFFETTO GEL

Unghie sempre in ordine e fashion in poco tempo.

Non è uno smalto...

Non è un gel...

o meglio...

è entrambi..

Un prodotto unico, grazie alla sua versatilità e alle sue caratteristiche.

Unghie perfette in pochi istanti, con 3 semplici passaggi, utilizzato con CosmoNails Base e Top 2 in 1 prima e dopo l'applicazione dello Smalto Effetto Gel scelto, aumentiamo la durata dello smalto in maniera strepitosa, evitiamo che si scheggi e doniamo un effetto extra-lucido, il tutto senza l'utilizzo della lampada.

Nails will be always perfect and fashionable in a very short time.

Cause It is not a nail polish...

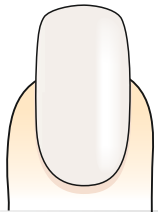

It is not a gel ...

better...

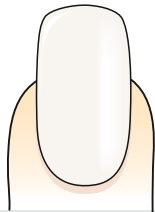

it's both things in one..

An unique product, thanks to its versatility and its characteristics. Perfect nails in a few moments, with 3 simple steps used in combination with CosmoNails Base and Top 2 in 1 before and after the application of Effect Nail Polish Gel chosen, we increase the lasting of the enamel in an amazing way, Avoiding splintering and giving a high-gloss effect, and all without using UV LAMP.

MODO D'USO - effetto gel:

1. Opacizzare le unghie con un mattoncino (buffer) o con una lima.
2. Applicare CosmoNails Base e Top 2 in 1 e lasciare asciugare all'aria.
3. Applicare lo Smalto Effetto Gel del colore desiderato e lasciare asciugare bene all'aria.
4. Riapplicare la Base e Top 2 in 1 e lasciare asciugare bene all'aria.

DIRECTIONS FOR USE - Gel effect:

1. Apply a matte finishing nails with a brick (buffer) or with a file.
2. Apply CosmoNails Base and Top 2 in 1, and air dry.
3. Apply the polish Effect Gel desired color and let dry thoroughly.
4. Reapply the Base and Top 2 in 1 and let dry thoroughly.

BASE e TOP 2 in 1

Smalto doppio uso dal colore trasparente che si applica prima e dopo lo "Smalto Effetto Gel" per aumentare notevolmente la durata dello smalto e donare lucentezza e protezione all'unghia. Dona al colore dello smalto un effetto "Cristallo". Non necessita l'utilizzo della lampada.

This dual-use transparent nail polish is applied before and after the "Gel-Effect Nail Polish", greatly increasing its durability and providing protection and a glossy finish. It provides the nail polish a "crystal-like" effect. It does not require the use of the lamp.

INDURENTE E RISTRUTTURANTE

L'indurente rinforzante è uno smalto molto fluido quasi come si trattasse di un olio. Si applica come uno smalto tradizionale ma non crea alcun tipo di pellicola, si assorbe e non lascia traccia, viene completamente assorbito dall'unghia. È un prodotto raccomandato per le unghie fragili, che si spezzano e si sfaldano.

The hardener reinforcing filler is a glaze very fluid, almost as if it were an oil. It is applied as a glaze traditional but does not create any type of film, it absorbs and leaves no trace, is completely absorbed from the nail and a product recommended for brittle nails that break and crumble.

SMALTO SEMIPERMANENTE

Un semipermanente di altissima qualità per un prodotto Made in Italy.

Abbinato alla Base-Finish, è un prodotto extra professionale, possiamo garantire una durata di ben 45 giorni...ESTREMA! Non cola durante l'applicazione, di facile utilizzo, non si scheggia.

È il prodotto più richiesto del momento e possiamo garantire una professionalità unica.

Ogni passaggio sia della Base-Finish che dello Smalto Semipermanente deve essere catalizzato per 3 minuti ed il risultato finale sarà un colore pieno ed extra lucente.

A high quality semi-permanent nail polish for a product Made in Italy.

Coupled with the ultra professional Base-Finish, we can guarantee durability of up to 45 days...EXTREME!

Does not drip during application - Easy to use - Does not chip. This is the must-have product of the moment, offering professionalism guaranteed.

Each step when using both the Base-Finish and the Semi-permanent Nail Polish requires drying under the lamp for 3 minutes.

The end result offers a rich, high-gloss color.

MODO D'USO:

1. Opacizzare le unghie bene con mattoncino (buffer) o con una lima.
2. Applicare il Primer lasciandolo asciugare all'aria.
3. Applicare Cosmonails Base- Finish e catalizzare 180 secondi.
4. Applicare lo smalto semipermanente del colore desiderato (AGITARE BENE PRIMA DELL'USO) e catalizzare per 180 secondi.
5. Applicare nuovamente la Base - Finish e catalizzare per 180 secondi.
6. Togliere la dispersione con il cleaner CosmoNails.

RIMOZIONE:

1. Per la rimozione utilizzare il Remover CosmoNails.
- Appoggiare sull'unghia una salviettina imbevuta di Soak Off Remover Solution e lasciare agire qualche minuto per rimuovere lo smalto semipermanente, se necessario aiutarsi con un bastoncino d'arancio.

DIRECTIONS FOR USE:

1. Rub the nails well with a buffer or with a file.
2. Apply the Primer and let it air dry.
3. Apply Cosmonails Base-Finish and dry for 180 seconds.
4. Apply the semi-permanent nail polish of the chosen colour (SHAK ING WELL BEFORE USE) and dry for 180 seconds.
5. Reapply the Base-Finish and dry for 180 seconds.
6. Remove the dispersion with cleaner CosmoNails.

REMOVAL:

1. Use the CosmoNails Remover.
- Place a wipe soaked in Soak Off Remover Solution on the nails and leave for a few minutes to remove the semi-permanent nail polish. If helpful, you can use an orange stick.

Cod. SP01 - 12 ML - 12,00 €

BASE FINISH

Prodotto studiato appositamente per essere abbinato alla linea degli Smalti Semipermanenti CosmoNails, Formula dalla qualità elevata che grazie ai suoi componenti ci assicura una durata lunghissima del nostro lavoro, fino a 45 giorni.

Si utilizza come Base prima dello Smalto Semipermanente scelto e come Finale, effetto extra luce. Deve essere sempre catalizzato in lampada per 3 min.

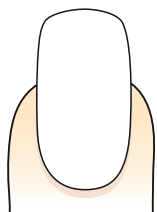

BASE FINISH

This product was specifically designed to be paired with the CosmoNails line of semi-permanent nail polishes. Its high-quality formula ensures optimal durability of the nail service for up to 45 days. It is used as a base before the Semi-Permanent Nail Polish chosen, and as a finishing gel, for a high gloss effect.

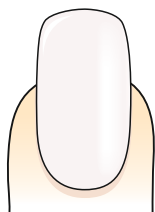

It always requires drying under the lamp for 3 minutes.

ONE STEP 4 IN 1 REVOLUTION

UV GEL COLOR

Gel colorati per far sbizzarrire le fantasie e la creatività di ogni donna.

Può essere utilizzato in tutti i modi, per semplici french color, per nail art o micropittura decorando le unghie, per un effetto colore pieno, il tutto con il vantaggio di una vasta gamma di colori.

Dai colori pieni, brillanti, glitterati, fluo, pastel, neon, metallic, insomma tutto ciò che la moda ci richiede esiste in questa vasta scelta di colori... e se la vostra tonalità non dovesse esistere?

Nessun problema...

Miscelandoli tra di loro potremmo ottenere qualsiasi sfumatura desiderata al mondo...

Made in Italy.

Catalizzare in lampada per 120 secondi

UV GEL COLOR

Coloured gels to give free rein to the imagination and creativity of every woman.

They can be used in any way, for simple French colours, for nail art or micro designs, or for a full-colour effect. And all with the advantage of a colour range.

Rich, glossy, glittery, fluorescent, pastel, neon, metallic, any colour dictated by fashion may

be found in this vast array of hues...

But what if your own special shade does not exist?

no worries...

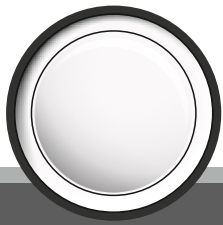

Mix them together to obtain any shade you want.

Made in Italy.

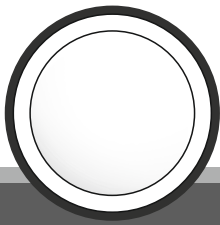

Dry under the lamp for 120 seconds.

GEL TRIFASICO

GEL BASE

Cos'è e quando si usa?

È un gel UV base che si usa come gel prima del gel costruttore, aumenta l'adesione del gel e ne prolunga la durata.

Si catalizza in lampada per 120 secondi.

Come si presenta?

Ha una consistenza gelatinosa semiliquida che ne facilita l'applicazione, completamente trasparente.

BASE GEL

What is it and when is it used?

It is a UV base gel used as a gel before the builder gel to increase gel adhesion and increase its durability.

It is dried under the lamp for 120 seconds.

What does it look like?

It has a semi-liquid gel-like consistency that facilitates application, and is completely transparent.

Cod. GB03 - 15 ML - 22,00 €

Cod. GB01 - 30 ML - 28,10 € *Pack Nero*

Cod. GB02 - 50 ML - 46,40 €

GEL COSTRUTTORE

Cos'è e quando si usa?

Gel costruttore estremamente resistente, per ricostruzioni, coperture e allungamenti, ottima tenuta e durata e facilità di utilizzo.

Si catalizza in lampada per 120 secondi.

Come si presenta?

Gel ad alta viscosità, molto corposo, si stende facilmente ed è automodellante.

Completamente trasparente.

BUILDER GEL

What is it and when is it used?

This extremely resistant builder gel can be used to model, cover or extend nails. It is very longlasting and durable, and is easy to use. It is dried under the lamp for 120 seconds.

What does it look like?

It is a high-viscosity, full-bodied gel. It is easy to apply, and is self-modelling.

It is completely transparent.

Cod. CS01 - 15 ML - 22,00 €

Cod. CS02 - 30 ML - 28,10 € *Pack Nero*

Cod. CS03 - 50 ML - 46,40 €

GEL FINISH

Cos'è e quando si usa?

Gel finale super lucido e resistente, rapido e flessibile, si utilizza come finale per tutte le metodologie di ricostruzione e ha tempi di polimerizzazione brevissimi infatti si catalizza in lampada per 120 secondi.

Come si presenta?

Consistenza semiliquida, si stende facilmente, non cola, è trasparente ed extra lucente.

FINISHING GEL

What is it and when is it used?

This ultra glossy and resistant finishing gel is fast and flexible to use. It is applied to finish off any modelling operation, and has very short polymerization times. Indeed, it dries under the lamp in 120 seconds.

What does it look like?

It is a transparent, high gloss gel with a semiliquid consistency. It is easy to apply and does not drip.

Cod. GF02 - 15 ML - 22,00 €

GEL MONOFASICO

Trasparente

Gel di media densità e automodellante. Ha un'ottima aderenza e ottima resistenza adatto al refill che all'allungamento. Perfetto in caso di ricopertura del letto ungueale con effetto naturale ottimo anche come lucidante finale.

Colore :Trasparente

Tempo di catalizzazione : 2 minuti in lampada uv

Medium density gel and self-modeling .It a good adhesion and excellent resistance to refill it suitable elongation. Perfect when covering the nail bed with excellent natural effect even as a final polishing.

Color: Transparent

Catalization time: 2 minutes uv lamp

Cod. M05 - 30 ML - 28,10 € - Pack Nero
Cod. M06 - 50 ML - 46,40 €

MONO GEL DIAMOND

La nuova versione del Diamond ha riflessi molto perlati e luminosi che riflettono la luce con effetto diamantato. Ottimo per allungamento del letto ungueale grazie alla sua consistenza.

The new version of Diamond has spoken and very bright reflections that reflect light with diamond effect.

Great for lengthening the nail bed due to its consistency.

Cod. M10 - 15 ML - 22,00 €

GEL ART BIANCO

Art gel è un nuovo materiale simile le pitturine acriliche ma costituito da un gel speciale estremamente pigmentato, senza dispersione, è molto coprente anche con uno strato molto sottile. Si può eseguire la tecnica del one move o un semplice disegno con linee molto sottili. Tempo di polimerizzazione per lampada uv ¼ minuti.

Art gel is a new material like the small pictures acrylic but consists of a special gel Extremely pigmented, without dispersion and very opaque even with a very thin layer It can perform the technique of one move, or a simple design with very thin lines. Time Polymerisation uv lamp for ¼ minutes.

BABY BOOMER

Gel costruttore lattiginoso, formula innovativa per i professionisti più esigenti. Ideale per tutti tipi di unghie, modellabile adatto per allungamenti su nail form e tips. Adatto per il refill pinzabile. La tecnica del baby boomer è perfetta per chi desidera mani curate e raffinate. Si tratta di una nail art sfumata che rende le unghie luminose mantenendo il loro aspetto naturale tempo di polimerizzazione uv: 120 secondi tempo di polimerizzazione LED: 60/90 secondi disponibile nei colori White Milk/PinkMilky

Gel builder, innovative formula for the most demanding professionals. Ideal for all types of nails, mouldable suitable for stretches on nail form and tips. Suitable for the refillable. The baby boomer technique is perfect for those who want refined and cared hands. It is a nuanced nail art that makes nails bright while maintaining their natural appearance UV curing time: 120 seconds LED curing time: 60/90 seconds available in White Milk / Pink colors

STEEL MONO ALTISSIMA DENSITÀ

E' un gel ad altissima densità che svolge la funzione di base e costruttore. Grazie alla sua composizione, questo gel anche in estate quando ci sono le alte temperature non provoca la brutta sensazione di calore sulle unghie durante la catalizzazione. Si stende con facilità perchè è automodellante. Per migliorare la performance di questo gel in termini di durata e lucentezza si suggerisce di terminare la sigillatura con il gel finish. Tempo di catalizzazione: 2 minuti in lampada uv

It 'a very high density gel that performs the basic function and builder. Thanks to its composition, this gel even in summer when there are high temperatures does not cause the bad feeling of heat on the nails during catalization. It spreads easily because it is self-modeling. To improve the performance of this gel in terms of durability and gloss is suggested to end the seal with the finish gel. Catalization time: 2 minutes uv lamp

GEL COSTRUTTORI

Il Cover Refill è un gel costruttore a medio-alta viscosità, della linea Sculpting. È un prodotto innovativo che grazie alla sua colorazione naturale risulta ideale per il refill, in quanto nasconde tutte le imperfezioni riducendo la visibilità della ricrescita e creando un effetto naturale coprente sull'unghia. Ottimo anche per effettuare la ricostruzione completa dell'unghia e per le forme estreme.

Pinzabile dopo 20/30 sec, mantiene perfettamente la curva C. Usato dopo il gel base, per una perfetta adesione sulle unghie naturali. Si consiglia l'abbinamento con lo Builder Milky e lo Builder Pink per creare l'effetto Baby Boomer. Polimerizzazione: 2 minuti in lampada UV, 60 secondi a Led.

The Cover Refill is a medium-high viscosity builder gel, of the Sculpting line. It is an innovative product that thanks to its natural color is ideal for refill, inas it hides all imperfections by reducing the visibility of regrowth and creating a natural effect opaque on the nail. Also excellent for carrying out the complete reconstruction of the nail and for the shapes extreme. Can be pinched after 20/30 sec, it perfectly maintains the curve C. Used after the base gel, for perfect adhesion on natural nails. It is recommended to combine with Builder Milky and Builder Pink to create the Baby effect Boomer. Curing: 2 minutes in UV lamp, 60 seconds to Led.

Cod. STC05 - 30 ML - 35,00 €

Il cover cream è un gel costruttore di alta viscosità con una consistenza gelatinosa, molto densa, ma allo stesso tempo morbida, che lo rende facilmente lavorabile come un acrilico. Grazie alla sua colorazione nasconde tutte le imperfezioni dell'unghia naturale, riducendo la visibilità della ricrescita. Ideale per le forme più estreme e per la realizzazione del muretto nella french in struttura.

Pinzabile dopo 20/30 sec
Polimerizzazione: 2/3 minuti in lampada UV, 60/90 secondi a Led.

The cover cream is a high builder gel viscosity with a jelly-like consistency, very dense, but at the same time soft, which makes it easily workable as acrylic. Thanks to its coloring it hides all the imperfections of the natural nail, reducing the visibility of regrowth. Ideal for the most extreme shapes and for the construction of the wall in the French in structure. Can be pinched after 20 / 30 sec
Polymerization: 2/3 minutes in a UV lamp, 60/90 seconds with Led.

Cod. STC04 - 30 ML - 35,00 €

GEL PLASTILINA

GEL PLASTILINA

La consistenza di questo gel è assimilabile ad una pasta modellante molto elastica che permette di creare elementi decorativi 3D ottenendo gli stessi risultati dell'acrilico, ma senza emanare un forte odore. Puoi creare le più svariate creazioni: dai semplici merletti fino ad arrivare a forme più complesse come quelle dei fiori.

Catalizza in lampada UV in un tempo variabile da 2 a 4 minuti a seconda della quantità applicata.

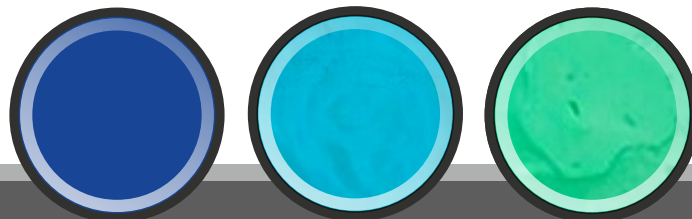

Il prodotto non può essere applicato direttamente su pelle, capelli o unghie naturali. E' indicato solo per la decorazione di unghie artificiali o già ricostruite.

PLASTICINE GEL

The consistency of this gel is similar to a very elastic modeling paste that allows you to create decorative elements 3D acrylic getting the same results, but without issuing a strong odor. You can create the most varied creations from simple lace until you get to more complex shapes such as flowers.

Catalyzes in UV lamp in a time varying from 2 to 4 minutes depending on the amount applied.

The product can not be applied directly on skin, hair or natural nails. And 'only it indicated for the decoration of artificial nails or already reconstructed.
